

PEKING UNIVERSITY

LETTER OF INVITATION

BEIJING, CHINA
JANUARY 15-18, 2015

Dear Colleagues:

We are pleased to invite you for the First International Conference on All Materials Fluxes in River-Ecosystem (AMFR2015) will be held in January 15-18th, 2015, at Peking University, Beijing, China.

AMFR 2015 mainly focuses on all material fluxes in large river systems, including the fluxes of water, sediment, nutrients, trace materials (e.g. nanomaterials, natural organic matter, organic pollutants, and heavy metals), living organisms (e.g. bacteria, viruses, protozoa, algae, and benthos), and gases. The conference will also consider river health assessment, hazards and risks, and restoration of damaged river eco-systems. Particular attention will be paid to the interactions of materials in rivers; this will include data acquisition, monitoring, analysis, and management.

Your participation and contribution will be extremely valuable and meaningful to the AMFR 2015.

We are looking forward to seeing you in Beijing on January 2015.

Kind Regards,

A handwritten signature in black ink, appearing to read 'Jinren Ni'.

Chair of the AMFR 2015

Jinren Ni, Ph.D, Professor, Deputy Dean

College of Environmental Sciences and Engineering
